

## Installation Guide

Picture 1

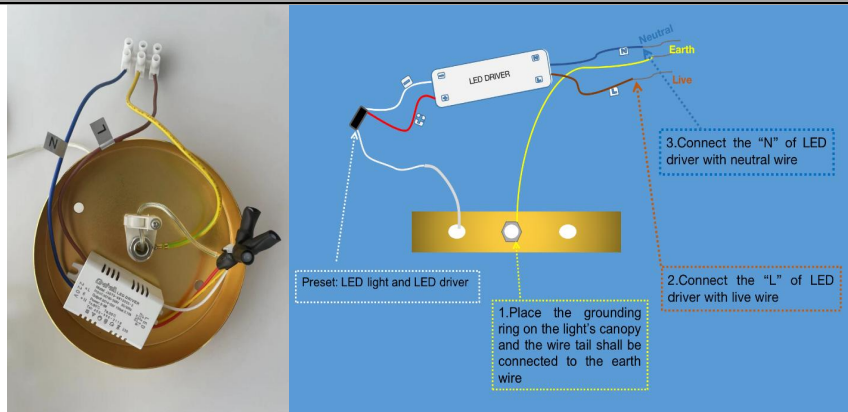

Parts list: self-installed lamps A\*1; self-tapping screws B\*2 (M4\*30); rubber plugs C\*2; terminal blocks D\*1; hanging boards E\*1; nuts F\*2; nuts G\* 2, E F G are pre-assembled parts that need to be removed; installation time: 30mins, number of installers: 1, installation difficulty: 1

Picture 2

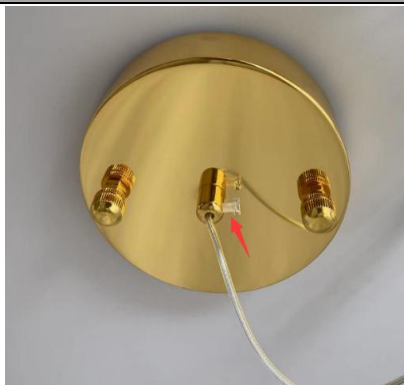

Step 1: Remove the E F G accessories pre-installed on the hanging plate; use the hanging plate to fix the hole position on the ceiling, and use screw B + rubber plug C to fix the hanging plate on the ceiling after drilling. (Tips: After the lamp is powered on and tested, if there is any problem, please take a picture of the wiring diagram and contact the customer service personnel.)

Picture 3

Step 2: As shown in the figure, use the terminal D, insert the three blue N brown L ground wires into the wiring and connect them to the home power supply. (Note: Before wiring, loosen the screws inside and outside the ceiling plate, and fix the screws after adjusting the height of the hanging wire to prevent the wires from slipping.)

Picture 4

Picture 5

Step 3: Fix the ceiling cup to the ceiling with nut F\*2+nut G\*2. (The arrow pointing to the screw can be fine-tuned and loosened to fine-tune the height of the hanging wire.)

Completion.
