

1. Shut off power before installation.
2. Fix the mounting strap to ceiling.
3. Feed the main wires through the centre tubing and screw the tubing into the socket cluster.
4. Feed the main wires through the chain connectors and canopy. Then, screw one connector into the top centre body and the other into the canopy.
5. Connect the main wires with wire connectors to the corresponding wires in ceiling.
6. Attach the canopy to the mounting strap and fix with cap nuts.
7. Put the metal band onto the glass shade and connect chains to the metal band.
8. Install light bulbs (not included with the light fixture) and hang the glass shade onto the top centre body.
9. Turn on the power and test.
