General Guidelines

1. Check the package and confirm all parts are included. If any part is missing or damaged, please contact us.

2. Do not disassemble the main body, as it has been installed & commissioned correctly & precisely before leaving the factory.

3. Shut off the main water supply prior to beginning installation.

4. Do flush the water supply lines to remove any dirt and debris before installation **(IMPORTANT)**.

5. Make sure to connect the hot/cold inlet pipe correctly. If standing in front, connect hot water pipe to the left and cold water pipe to the right.

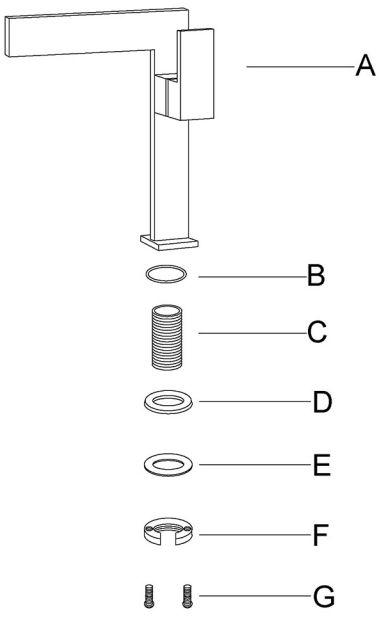
6. After the installation, check for leaks and make sure every joint is safely sealed.

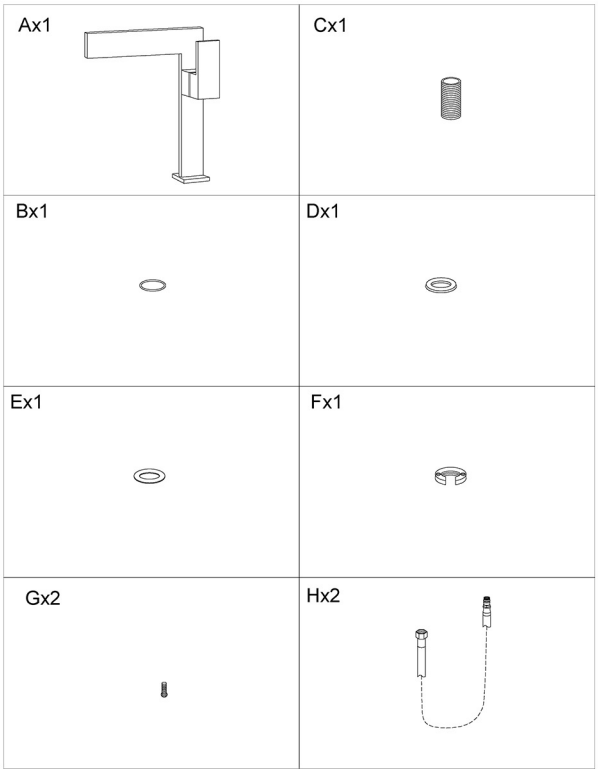
Assembly Instructions

TOOLS YOU MAY NEED

Electric Drill — Safety Goggles — Adjustable Wrench — Pliers — Screwdriver — Pencil

Parts List





Notes：

Check the accessory package after unwrapping it and confirm each accessory is included.

Cleaning and Care

Turn off the touch tap and remove the batteries in the battery holder if it is not used for a long time. Care should be exercised when cleaning this product. Although its finish is durable, it can be damaged from harsh abrasives and cleaning pads. To clean, use light, non-abrasive cleaning solution or cleaning polish.

Troubleshooting

Problem	Possible Cause	Corrective Action
Water does not shut off completely.	1. O-ring is not seated correctly or worn. 2. Cartridge may be defective.	1. Reseat or replace O-ring. 2. Replace cartridge.
