General Guidelines

- Please read the following instructions carefully and use the product accordingly.
- Please keep this manual and hand it over when you transfer the product.
- Product is intended for indoor use only. It must be assembled and used according to the instructions. The seller does not accept any responsibility for damage or injury resulting from improper assembly or use.
- This summary may not include every detail of all variations and considered steps.
- Please contact us when further information and helps are needed.

Warning

- Children are not allowed to assemble the product. During assembly, keep any small part out of reach of children as they may be fatal if swallowed or inhaled.
- Children are not allowed to stand, climb or play on the product to avoid serious bodily injury by the toppling.
- Keep plastic packing bags out of reach of children to avoid any potential danger, such as suffocation.
- Avoid sharp objects and corrosive chemicals to prevent damage to the product or bodily injury.

Use and Maintenance

Clean with damp cloth. To protect the finish, avoid use chemicals and household cleaners.

Assembly Instructions

- Read these instructions carefully and keep for future reference. Refer to parts inventory for guidance, and ensure you have all pieces before starting.
- **When assembling place all parts on a soft, clean, and flat surface such as a carpet to prevent scratches.**
- **During assembly, align all screws with the corresponding pre-drilled holes first and then tighten them one by one.**

Installation Steps

Step 1

1. Choose the wall to be installed and clean it.
2. Take a magnet piece and glue it to the wall. Let the glue dry. (Please first install the magnet with the maple leaf to confirm the positive and negative direction.)

Step 2

3. Attach a maple leaf to a magnet. The Angle of the maple leaf can be adjusted at will.

Note:

- 1, If the wall itself is magnetic, the maple leaf can be directly adsorbed to the wall (such as refrigerator door, iron door, etc.); No need to attach the magnet piece first.
- 2, If the installation position is high, considering the stability, you can apply glue at the contact point between the maple leaf and the wall.
