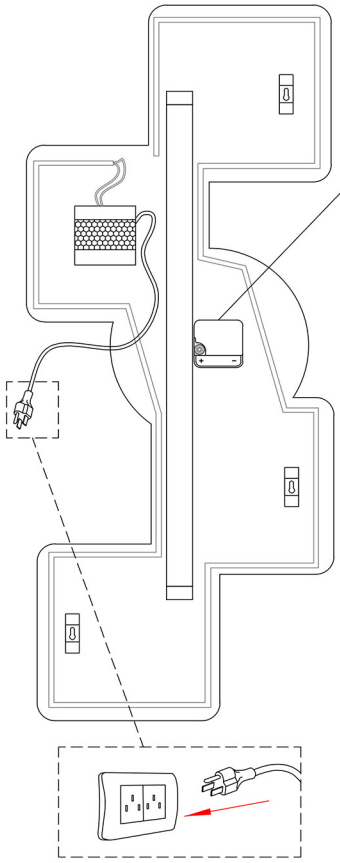
# Installation Steps

## Step 1

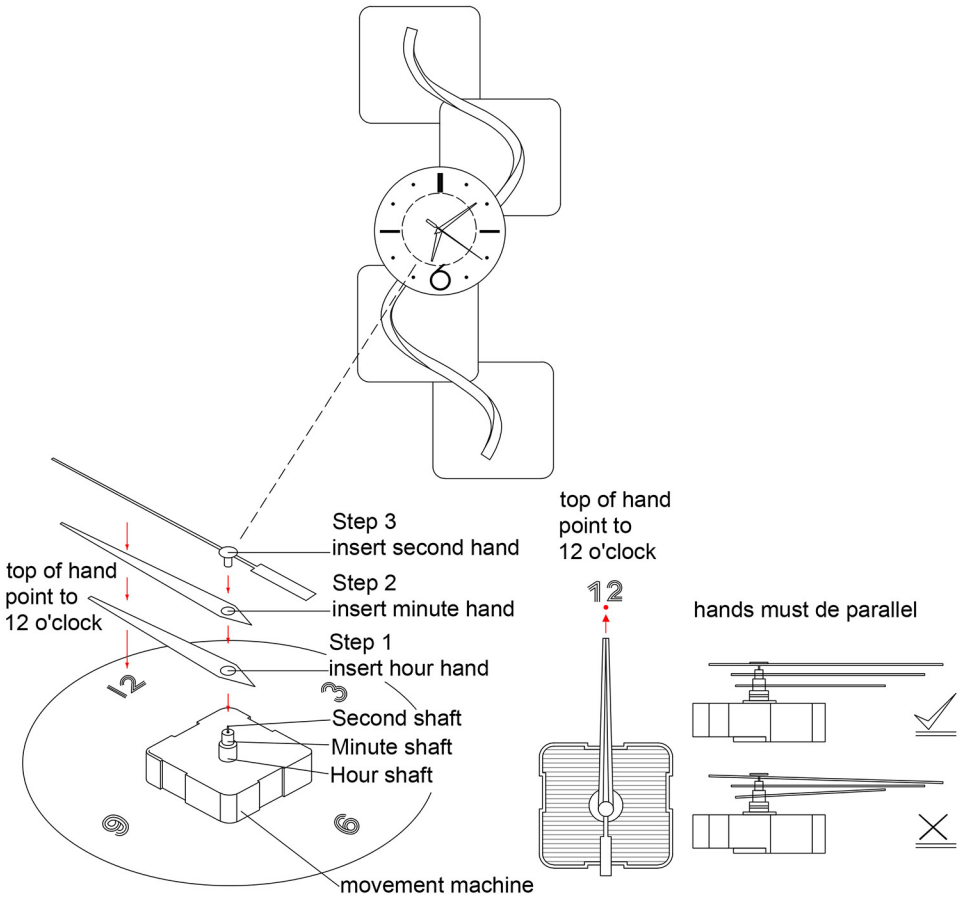


Insert the wall clock plug into the plug

### Battery installation

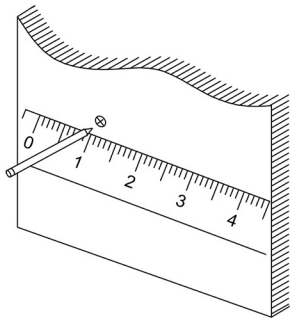
1. Battery selection, model: AA cell/battery, general size: diameter: 14mm, height: 49mm; Please use carbon dry battery (R6P), alkaline battery (LR6) or rechargeable battery is not recommended.
2. When unpacking and taking out the wall clock, do not directly turn the clock face upside down to the ground or the desktop, because it is easy to press the pointer to deform and damage the movement. Please check whether the pointers are deformed: there is no deformation or crossing between the pointers, which can follow the "-+" direction of the battery slot on the movement, and the battery is in the same direction, As shown in the figure above; Then remove the pointer protective housing, Adjust the pointer to the local time with the movement wheel.

## Step 2

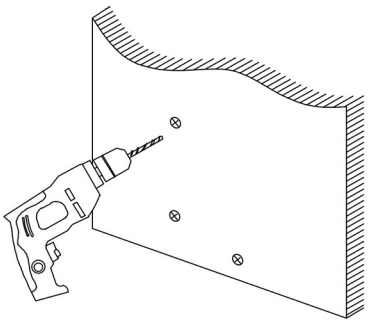


## Installation Steps

# Step 3



Step 1:Mark the hole position on the wall with a pen,

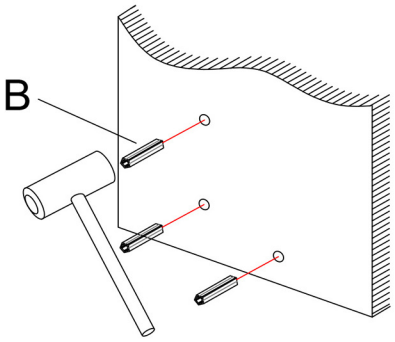


Step 2: Punch holes at the marked positions with an electric drill, the depth of which is the length of the expanded rubber cap.

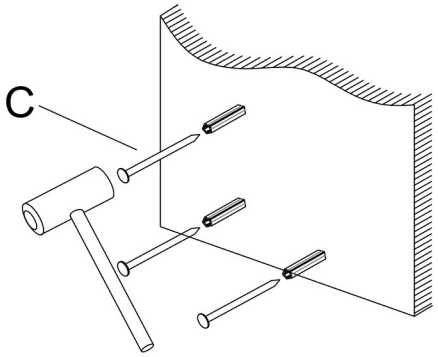
# Step 4

B x3

C x3



Step 3: Plug the expansion rubber cap into the hole.



Step 4: Nail the screw into the expanded rubber cap, with the nail head reserved for 5mm, and hang the product back hook on the screw to finish.
