ESSENTIALS FOR LIVING®

Who is Essentials For Living?

Welcome to Volume 3 of the Essentials For Living Sourcebook.

The Essentials for Living brand is the culmination of two long time successful brands, Star International Furniture & Orient Express Furniture. This merging of Contemporary & Transitional in 2019 created the Essentials for Living look. A true blend of eclectic materials, finishes and innovative designs combined with over 40 years of experience.

Star International Furniture's success began in 1977, providing dependable service to the contemporary furniture world. In 2002, Star International added a sister brand, Orient Express Furniture. Orient Express has remained on the cutting edge of transitional furniture design for 20 years with on-point trend forecasting. Merging Star

International's contemporary designs with Orient Express' transitional style was a long-term goal for the company, achieved in 2019.

Little shows off the look of our brand better than the blending of all our dynamic collections, in one space, to create one cohesive look, that is **Essentials For Living**.

— Anna Schweiss
V.P. Design & Merchandising

Within this Sourcebook you will find a mix of designs that can either seamlessly blend together or be

used to create dynamic contrasting environments. As always, each of the products presented are manufactured with a rigorous attention to detail and an uncompromising level of quality.

Essentials for Living prides itself on offering the same great quality, same great style and service you've relied on from Star International & Orient Express Furniture for over 45 years. Headquartered in Foothill Ranch, CA, Essentials for Living operates two quick-ship warehouses on the East (High Point, North Carolina) and West (Foothill Ranch, California) coasts. Essentials For Living sells via its Retail Store dept., Designer Care dept., E-Commerce dept., & Direct Container program.

www.EssentialsForLiving.com

East and West Coast Distribution

Orange County CALIFORNIA

19511 Pauling, Foothill Ranch, CA 92610

Essentials For Living's corporate headquarters house a 12,000 sq. foot showroom and a 120,000 sq. foot warehouse stocked with the current offerings found in this Sourcebook, closeout specials and one-of-a-kind items that can't be found anywhere else. The strength of the two distribution centers is in their ability to rapidly fulfill orders to anywhere in North America providing consolidated, convenient shipping.

High Point NORTH CAROLINA

206 N. Pendleton St., High Point, NC 27260

Essentials For Living maintains an East Coast distribution presence just a few miles from High Point Furniture Market and close to local freeways. The recently purchased 100,000 square foot distribution center in High Point, North Carolina is a 70% size increase over previous East Coast operations. This facility houses deeper stock and allows for better service with quicker, more efficient routes of delivery.

MATERIAL GUIDE

BELLA ANTIQUE COLLECTION

RECLAIMED WOOD

All reclaimed wood finishes in our Bella Antique Collection are natural materials that feature variations in color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. These visual characteristics add to the natural beauty of the material, unique to each piece. The surface of the wood is treated with a light coat of stain-resistant colorless wax.

Care & Maintenance:

Although the surface of the wood is treated with wax, it is still subject to stains if spills are left without immediately wiping. It is strongly recommended to use a place mat or coaster to protect the surface from heat over 140° F from hot pots/pans/dishes/cups to avoid burn marks. It is recommended to reapply the wax to the surface periodically with a neutral household paste wax that can be purchased at any major home improvement store. Dust the surface regularly with a clean, damp cloth. Avoid using harsh abrasives or chemicals.

BELLA ANTIQUE COLLECTION CONCRETE

LIGHT GRAY CONCRETE

The concrete finish from our Bella Antique collection is a natural material, comprised of various types of limes, cements, silicates, additives and other ingredients. It is mineral-based, and has a surface like natural stone. It is strong, flexible, has good adhesion, and comes in different colors and appearances. To give it a real natural concrete look, the surface is full of small cement particles, which can be up to 0.8 mm in size. If aggressive acids, like red wine or vinegar, are spilled and left without immediately wiping, it can leave marks on the micro particles (similar to marble and natural stone).

An added layer of invisible water-based protection is included on top of the finished surface. This treatment should be reapplied periodically to keep the surface saturated and protect against stains. After years of use, this finish becomes more and more beautiful as it gives the concrete a natural patina.

Care & Maintenance:

Handling & Unpacking

To unpack safely, use a soft or padded surface before emptying box contents. Please take special care not to damage the concrete edges with a hard surface.

Heat Protection

It is strongly recommended to use a trivet or coaster on the surface to protect it from heat over 140° F from hot pans/dishes/cups to avoid burn marks.

Micro-Scratch Removal

Sand the surface lightly with a fine grit sanding paper, and apply oil, like you would on natural stone.

Stains & Spot Treatment

A sponge pad lightly dampened with vinegar diluted in water can be used to treat surface stains. It is important to do this as soon as possible before the stain penetrates the micro particles in the surface.

BELLA ANTIQUE COLLECTION BLUESTONE

BLUESTONE

Bluestone, featured in our Bella Antique Collection, is a gray blue limestone material. It is a naturally occurring stone formed within the Earth and features variations in color, veining distribution, pattern and density which adds to the beauty and charm of the material. No two pieces are exactly alike. Bluestone gets its color from the different minerals that fossilized into the rock during formation. Over time, a patina will begin to form with prolonged exposure to the sun. Treatment with a natural colorless wax will allow the polished shine to be retained. The use of natural oils will help to maintain and protect the stone surface from acid abrasion and stains. It is important to note that the application of such oil will slightly darken the surface color. It is strongly recommended to use a place mat or coaster on the stone surface to protect it from heat over 140° F from hot pots/pans/dishes/cups to avoid burn marks.

Care & Maintenance:

Scratch Removal

If scratches appear in frequently used areas, use a natural uncolored wax before polishing with a small hand/floor polisher. The mechanical action of the disk will re-polish the stone and light scratches will be softened and become part of the patina. Micro-scratches, which appear over time, will fade easily if cleaned with a natural oil-based mild soap and warm water. Rinse with a soft, clean cloth soaked in clean warm water.

Stain Treatment

The polished finish is subject to blemishes if acidic liquids (like vinegar, red wine, etc.) are left on the surface for more than a short period of time. To clean stains, use several drops of olive oil (or linseed oil) diluted in turpentine on a cloth to coat the surface of the stone. It is important to do this as soon as possible before the stain penetrates the micro particles in the surface. Oil and water repelling products can also be used. For grease stains, there are special detergents available.

BELLA ANTIQUE COLLECTION ENGINEERED WHITE QUARTZ

The engineered quartz material featured in our Bella Antique Collection is comprised of a mixture of quartz material, resin, and pigment. Much like natural stone, no two pieces are exactly alike due to variations in color, texture, luster, and veining. These differences are not defects and should be considered part of the natural beauty of the material.

Care & Maintenance:

It is strongly recommended to use coasters, place mats or trivets on the surface to prevent damage from liquids, heat, and food stains. The quartz material comes with a water-based sealant applied to the surface and although this sealant will provide some protection against water-based stains, it is highly recommended that any spills are attended to immediately.

If acidic liquids (e.g. vinegar, red wine, lemon, etc.) are left sitting on the surface for more than a short period of time, blemishes will appear. For general cleaning, a damp cloth may be used to remove surface contaminants.

MATERIAL REFERENCE

DISTRICT COLLECTION CONCRETE

The concrete from our District Collection is a fiber-reinforced material comprised of granite stone powder, cement, natural jute fibers and water. Like any natural material, such as wood or stone, concrete is a porous material. The surface is coated with a wax sealer that will provide protection against staining. Expect the wear of the product to contribute to its uniqueness. To ensure the lasting beauty of the concrete surface, it is recommended to use a place mat or coaster to protect it from hot objects. To prevent scratches, do not place or drag sharp or coarse objects across the surface. Use felt pads on the bottom of objects that will remain on the surface of the product for long periods, especially natural stone materials or items containing moisture. Avoid putting painter's tape or other adhesives directly on the surface.

Care & Maintenance:

It is recommended to reapply the wax seal periodically to keep the surface protected against stains. Wax once within 2 months of installation of the product and every 3 to 6 months thereafter,

depending on the use and location. If the product is placed outside, wax it well before Winter, ensuring that it is covered and raised off the ground. Outdoor items should not be left outside in extreme weather such as freezing temperatures, snow and ice. The recommended product is any commercially available stone floor wax with a paraffin base.

Avoiding Stains

The sealer and wax serve as active barriers on the concrete surface. In the event that the coating is knowingly cut, scraped, or damaged, new wax should be reapplied. Spills should be wiped up as soon as possible. While the wax performs well against oil stains and acidic materials, prolonged exposure may cause penetration of the sealer and possible discoloration. Avoid contact with acidic substances, such as citrus, which can damage the wax, resulting in less stain resistance. Oils in particular can penetrate the surface when forced in from the weight of a glass. Although not considered a defect, non-structural hairline cracks are possible and may result from shrinkage and the natural curing process. If hairline cracks do appear, immediately apply a thick coat of wax and rub in well to prevent moisture from seeping into the cracks and causing discoloration.

Cleaning

Clean the concrete surface using mild soap and water. Do not use cleaning products that contain acetone or denatured alcohol. Do not use harsh abrasives, bleach-based or ammoniated cleansers. Avoid using natural cleansers, which are often citrus based, as the cleaning agent is typically highly acidic and can damage natural materials.

SPECIAL CONSIDERATION: District Collection's Concrete is a fiber-reinforced material comprised of granite stone powder, cement, natural jute fibers and water. Although not considered a defect, non-structural hairline cracks are possible as a result of shrinkage and the natural curing process. Outdoor items containing Concrete should not be left outside in extreme weather such as freezing temperatures, snow and ice. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.

MATERIAL GUIDE

THE HAMPTONS COLLECTION RATTAN

Rattan has a natural beauty, warmth and texture that makes every room more interesting. From hand-bent frames to texture-rich weaves, all of our rattan pieces are made completely by hand using time-honored techniques. Rattan is a strong, pliable, lightweight and sustainable material. Each piece is handcrafted by skilled artisans in Indonesia using naturally derived materials. The Matte Gray rattan finish may vary in color due to the natural absorption of the stain by the rattan material.

Care & Maintenance:

Cracking may occur if left in direct sunlight or a dry environment. To prevent this, moisten the rattan every month using a damp white cotton cloth and let dry naturally. The use of a small humidifier in the room may also help protect from cracking. As rattan ages, it will take on a more muted shade for that lived-in look we love. To preserve its beauty, use it indoors and avoid exposure to the sun. To protect the seats & backs, avoid putting undue stress (like standing or kneeling) on the synthetic weave. Our rattan poles and synthetic weaves have a clear lacquer finish for added durability.

Cleaning

Blot spills immediately with a damp cloth. To remove stains, use a soft brush and mild soapy water and rinse well. Then let it dry naturally. For dusting, vacuum the synthetic weaves periodically using a soft brush attachment or comb the surface with a soft bristle brush. This can help dislodge and remove some of the debris left behind in-between the weaves. Dust rattan poles with a soft cloth.

SPECIAL CONSIDERATION: The Hamptons Collection products are made by hand from local artisans, who weave one piece at a time from natural rattan & synthetic fibers. These products include unavoidable variation in color (due to the dye process in which each piece of rattan absorbs color differently), texture, uneven grain, with the possibility of blemishes, scratches, marks, and cracks. These features are not defects, but rather part of the material's natural characteristics. By ordering from this collection, you accept the characteristics unique to each item and the hand-woven nature of the product. You agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this natural finish.

MATERIAL GUIDE

SEL DE MER COLLECTION RATTAN

Rattan has a natural beauty, warmth and texture that makes every room more interesting. From hand-bent frames to texture-rich weaves like cane and wicker, all of our rattan pieces are made completely by hand using time-honored techniques. Rattan is a strong, pliable, lightweight and sustainable material. Each piece is handcrafted by skilled artisans in Indonesia using naturally derived materials. The Matte Gray rattan finish may vary in color due to the natural absorption of the stain by the rattan material.

Care & Maintenance:

Small, grass-like strands may protrude from the rattan weaves. Do not pull on them as doing so may damage the rattan peel. Instead, carefully trim the loose fibers with scissors.

Cracking may occur if left in direct sunlight or a dry environment. To prevent this, moisten the rattan every month using a damp white cotton cloth and let dry naturally. The use of a small humidifier in the room may also help protect from cracking. As rattan ages, it will take on a more muted shade for that lived-in look we love. To preserve its beauty, use it indoors and avoid exposure to the sun.

To protect the seats and backs on cane and wicker furniture, avoid putting undue stress (like standing or kneeling) on the rattan weave. Our rattan poles and weaves have a clear lacquer finish for added durability.

Cleaning

Blot spills immediately with a damp cloth. Do not rub the soiled area. Gently dab and blot instead, allowing remaining moisture to dry naturally. Rubbing can cause abrasions, permanently damaging the rattan.

For harder to remove stains, use a soft brush and mild soapy water and rinse well. Then let it dry naturally. Avoid the use of cleaners and abrasives, as these will damage the rattan. For dusting, vacuum the rattan weaves periodically using a soft brush attachment or comb the surface with a soft bristle brush. This can help dislodge and remove some of the debris left behind in-between the weaves. Dust rattan poles with a soft cloth.

SPECIAL CONSIDERATION: Sel De Mer Collection products are made by hand from local artisans, who weave one piece at a time from natural rattan. These products include unavoidable variation in color (due to the dye process in which each piece of rattan absorbs color differently), texture, uneven grain, blemishes, scratches, marks, and cracks. These features are not defects, but rather part of the material's natural characteristics. By ordering from this collection, you accept the characteristics unique to each item and the hand woven nature of the product. You agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this natural finish.

STITCH & HAND

MATERIAL REFERENCE

ANTIQUE BRASS NAILS

BRUSHED SILVER NAILS

GOLD NAILS

MATTE BLACK NAILS

STITCH & HAND COLLECTION

UPHOLSTERY

Down-filled cushions and pillows from our Stitch & Hand Collection require care to keep up their appearance. The key issue being continued thickness and cushioning. It is normal that down-filled cushions will flatten over time as air leaves the cushion. It is also important to clean and freshen your down-filled cushions, ensuring you always follow the cleaning codes for the cushion covers containing your down fill.

Care & Maintenance:

Restoring Loft

To maintain the even thickness of your cushions and pillows over time it is important to rotate them. It is also recommended that you not sit in the same position on the sofa or chair regularly. Fluffing (shaking and squeezing) your pillows and cushions will help distribute the down evenly throughout the piece and help bring air back into the cushion.

Cleaning

The easiest way to keep for furniture clean is to remove and clean the cushion covers and / or slipcovers when possible. Down cushions and pillows can become moist which can cause a slight smell. The best way to remove the odor is to remove the down section from the cover and place them outside on a sunny day for several hours. Another option is to spray your item with a fabric air freshener.

TRADITIONS

MATERIAL GUIDE

TRADITIONS COLLECTION

ACACIA VENEER

NATURAL GRAY ACACIA

RUSTIC JAVA ACACIA

The Acacia Veneer finish from our Traditions Collection is sand-blasted to create a rustic appearance. This process accentuates the natural grain of the wood and creates a variation in both color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. These visual characteristics add to the natural beauty of the material, unique to each piece.

Care & Maintenance:

The surface of the Acacia Veneer is subject to stains if spills are left for a long time without wiping. It is strongly recommended to use a place mat or coaster on the surface to protect it from heat over 140° F to avoid burn marks. Dust the surface regularly with a clean, damp cloth. Avoid using any harsh abrasives or chemicals. The surface of this item has been treated with a wax to help protect the finish. It is recommended to reapply wax to the surface from time to time. We recommend a neutral household paste wax that can be purchased at major home improvement stores.

SPECIAL CONSIDERATION: The Acacia Veneer finish is sandblasted to create a rustic appearance. This process accentuates the natural grain of the wood and creates a variation in both color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.

The Faux Shagreen finish from our Traditions Collection is a resin-based material and is meant for indoor use only. This material is created by pouring a liquid resin mixture into a mold to recreate the look and feel of real Stingray skin. This process produces an unavoidable variance in color and texture. The mold used creates panels which are then adhered to each piece of furniture resulting in the characteristic seaming. Because this is done by hand, varying degrees of seam visibility are to be expected.

Protect your faux shagreen furniture by keeping it out of direct sunlight. Use coasters or trivets to protect the surface from direct heat and liquids. Use felt pads if placing objects directly onto the faux shagreen surface to avoid scratching. Do not use heavy force when placing objects directly onto the surface – this will help avoid unnecessary cracking.

Care & Maintenance:

Light cleaning should be performed regularly with a damp, clean cloth. Follow by drying with a soft, dry cloth. If a spill occurs, do not let liquid stand for prolonged periods of time. This will help to avoid warping or staining.

Dirt Removal

If debris lingers in the grain of the faux shagreen, dip a clean toothbrush into water and brush the dirt out. Follow by drying with a soft, dry cloth.

Stain Treatment

It is important to treat stains as soon as possible. Only use non-abrasive cleaners as common household cleaners have harsh acids or alkalis that could damage the surface. Before using any cleaning agent, be sure to test on a less visible area. Never spray cleanser directly onto surface.

SPECIAL CONSIDERATION: Faux Shagreen finish is meant for indoor use only. This material is created by pouring a liquid resin mixture into a mold to recreate the look and feel of real Stingray skin. This process produces an unavoidable variance in color and texture. The mold used creates panels which are then adhered to each piece of furniture resulting in the characteristic seaming. These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.

TRADITIONS COLLECTION

MARBLE

WHITE CARRERA MARBLE

The White Carrera Marble from our Traditions Collection is 100% natural stone imported from Italy. Each marble slab has a surface that features variation in color, veining, texture and density. The existence of minor visible natural cracks in the surface of the marble should be expected. These visual characteristics add to the natural beauty of the material, unique to each piece.

The surface of the marble is delicate and is subject to marks if aggressive acids (like vinegar, red wine, lemon, etc.) are spilled and left without immediate cleanup. To protect the marble from acid abrasion and grease stains, apply a marble sealer. It is strongly recommended to use a place mat or coaster on the stone surface to protect it from heat over 140° F to avoid burn marks.

Care & Maintenance:

Clean the surface after use with a clean cloth or paper towel with a marble cleaner. Only use specifically designed cleaners for marble as common household cleaners have harsh acids or alkalis that could etch or dull the marble surface.

Scratch Removal

If slight scratches appear in frequently used areas, use a natural white wax before polishing with a small hand/floor polisher. The scratches will be softened and become part of the patina.

Stain Treatment

Use several drops of linseed oil on a cloth to coat the surface of the marble. It is important to do this as soon as possible. Oil and water repelling products can also be used.

SPECIAL CONSIDERATION: Tradition Collection's Carrera Marble is a 100% natural stone product imported from Italy. As such, variance from piece to piece is to be expected. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect the marble's finish.

TRADITIONS COLLECTION

CONCRETE

WHITE CONCRETE

The White Concrete finish from our Traditions Collection is a handcrafted concrete resin top that features an aluminum honeycomb internal structure for added strength. The top is coated in a durable two-step finish that is commonly used on automobiles, making it resistant to most spills, weather and abrasions. This process results in a variation in color, texture and density. These visual characteristics do not affect the lifespan, quality or durability of the material, but are a part of the natural beauty, unique to each piece. The concrete surface will patina over time with daily use and sun exposure, which will add to the beauty of your furniture. Avoid exposure to items of extremely high or low temperature by using place mats and coasters.

Care & Maintenance:

The surface of the concrete is subject to stains if aggressive acids (like vinegar, red wine, lemon, etc.) are spilled and left without immediate cleanup. Grease and dirt can also leave stains and can cause the surface sealer to break down.

Cleaning

The concrete surface should be cleaned with a PH-neutral soap solution and a soft cloth. Afterwards, wipe with a clean, dry soft cloth. Avoid the use of chemicals, acidic products or solvents.

Scratch Removal

Sand any small scratches that may appear with a fine grit (320) sandpaper and wipe with a wet soft cloth. The scratches will be softened and become part of the patina.

SPECIAL CONSIDERATION: The White Concrete finish from our Traditions Collection is a handcrafted natural polystone material that features variation in color, texture and density. These visual characteristics do not affect the lifespan, quality or durability of the material, but are a part of the natural beauty, unique to each piece. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.

VIVENTE COLLECTION MATERIAL GUIDE

All products from the Vivente Collection are 100% Made in Italy. The materials used in the manufacturing process are sourced from certified suppliers complying with European safety and durability regulations. Vivente products are made with materials that are completely non-toxic and do not contain substances that are harmful to human health and to the environment. Products made with glass are safety tempered. Padding and upholstery materials are flame-retardant. Avoid excessive exposure to direct sunlight in order to prevent prompt aging of the furniture and color tone variation. Protect furniture from high temperatures or humidity both in transportation and in the area in which it is installed. Do not drag objects through the surface; always lift objects. Avoid placing glasses or cups directly on the surface. Cold, wet, or hot drink containers can damage the finish and leave stains. If liquids are accidentally spilled on a surface, immediately wipe with a damp cloth, and later dry it with a soft lint-free cloth.

Care & Maintenance:

Fabrics & Eco-Leather

Clean eco-leather and microfiber surfaces with a soft dry cloth, being careful not to rub excessively to avoid damaging the material. Do not use cleaning products under any circumstances.

Cleaning instructions are not valid for persistent or dried stains: the dirt must be cleaned immediately. *Essentials For Living is not responsible for any stains or wear and tear on fabrics.

Hard Surfaces

In the case of stains, we recommend the use of pure water or mild liquid detergent (neutral PH soap) or refer to a professional according to the table below:

	Cold water	Cold water and mild detergent	Warm water and mild detergent	50% alcohol or refer to a professional
Juice, jam, syrup, milk, tea, coffee, spirits, wine, soap, ink	X			
Grease, wine and spirits, sauce, dried blood, eggs		X		
Vinyl glue, water-based paints, jelly, organic residue			X	
Natural oils, liquid ink, felt markers, cosmetics, hairspray			X	X
Nail polish, linseed oil				X

In order to protect the surfaces, do not use powder detergent, abrasive products, bleach or highly chlorinated substances, acids and strong bases. Avoid spraying products directly on the surface because this can leave stains, but rather apply detergent on a damp soft cloth, and then clean and rinse. For smooth or slightly embossed surfaces, make a preliminary cleaning with a soft cloth using the detergents of the above table. If there is still dirt in the deepest veins of the embossing, treat the affected area with a melamine sponge that has been slightly dampened with warm water.

WOVEN COLLECTION

OUTDOOR | GRAY TEAK

NEW GRAY TEAK

Teak Wood Grade: A | **B** | C

Teak wood, Latin name *Tectona Grandis*, has become one of the most sought after woods and is widely known as the most valuable tropical hardwood. Teak wood is an excellent material for many applications including ships/boats, buildings, bridges and high end furniture, including outdoor furniture.

Since the interior of the wood contains rich natural oil, teak can withstand extreme weather conditions. Teak wood grows slowly, which is partly why it has such a rich oil content. Teak is not harvested until it has grown for 30-50 years. All Teak wood is kiln dried to a 10% moisture content. This process is essential and is strictly controlled to ensure the product is dried properly to avoid extreme cracks, bows and cupping, which can occur when wood has a high moisture content. During production, it is normal for the moisture content to rise to around 12-14%.

Teak Production

- Most joints are Mortise & Tenon
- Some joints require a grooving line ("U" Groove) to allow the wood to move. This is also called "checking".
- For outdoor products, it is best to use slats instead of solid laminated tops because the wood is always breathing and moving. The gaps between the slats allow water to pass through the top, which helps to prevent water from collecting.
- Our furniture is constructed using a very particular glue sourced from Europe that is designed for use with outdoor furniture.
- Hairline cracks and other cracks are part of a natural reaction and should be expected. Solid Teak wood is a living material that is constantly reacting to the surrounding environment, in particular an open-air environment.

All solid wood exported from Indonesia is strictly monitored by the Indonesian Government to avoid any illegal timber trades. Our Teak wood is exported under license.

Care & Maintenance:

Once you have assembled and placed your solid Teak wood furniture outside, it is recommended that you clean it. Spray down the furniture with a water hose to remove the dust and dirt. Once soaked, let the furniture dry under direct sunlight. Repeat this process 3-5 times. This process helps minimize the potential for the natural oils to drip onto any cushions, which can cause stains.

Instant Gray

Our products are finished in what is called Instant Gray Finish. This is a treatment that helps the wood turn its silver-grey patina much faster. The wood will change color in approximately 6 months to a year. For the best Instant Gray results, it is important to put the product outside under direct sunlight. The following is a normal part of the Instant Gray process:

- During rains, your furniture may look dirty and appear to be stained
- Dark and light lines may develop in the wood
- The finish may look like it has drops on it after the initial exposure to rain

AGED GRAY TEAK

NEW

AGED

(Over 6 Months)

WOVEN COLLECTION OUTDOOR | GRAY TEAK

Cleaning

Continue to leave your furniture outside and after approximately 1-3 months the color will start to appear more uniform across the product. After the initial exposure to rain, do not attempt to clean your furniture with soap and water. Clean your furniture only with a hose to spray away the dirt. After 3 months, you may clean your furniture by gently rubbing with a soft sponge, mild soap and water. A soft-bristle brush may be incorporated for a more robust cleaning. Rinse with water and dry with a soft cloth. If more care is needed, use Teak Cleaner then apply a new layer of Instant Gray finish.

Here are the products we recommend:

Golden Care®
Multi-Surface Outdoor
Furniture Cleaner &
Stain Remover Spray

Golden Care®
Hardwood & Teak
Instant Gray Finish

Maintenance

If the furniture is in a freezing environment, thoroughly clean and dry, then store it in a dry place such as garage or shed. Rain and snow may fill any small cracks in the wood with moisture, which will lead to additional cracks. If storage is unavailable, the furniture should be covered with outdoor furniture covers and not left wet. Avoid letting water stand on the surface of your furniture or cushions. It is recommended to store cushions indoors during heavy rain or extreme weather. Do not cover your furniture with fabric that does not breathe. If the furniture is left wet, the furniture will likely develop mildew that will need to be cleaned off.

SPECIAL CONSIDERATION: The Woven Collection's "Gray Teak" is solid teak wood finished with a solution that expedites the aging process of teak to a natural silver tone. Over time, the natural weathering of Gray Teak will cause its appearance to change in color and texture, with possible marks and cracks. By ordering Gray Teak, you accept these characteristics and agree that no claim will be approved regarding the natural aging process of teak or the special color qualities associated with the Gray Teak finish. Special care should be taken to protect this natural finish.

WOVEN COLLECTION OUTDOOR | UPHOLSTERY

Outdoor Performance Fabric

Sunproof brand by Ateja, provides premium quality outdoor fabrics & rope materials. Offered in both solution dyed Olefin or Acrylic, these fibers are color dyed through the material offering many weather resistant qualities. All Sunproof fabrics have passed the most stringent of tests in accordance with International standards. This testing includes color fastness to light, rub testing, water repellency, soil & stain repellency, antibacterial, anti-mildew, as well as UV resistance. Sunproof is a trusted quality brand, offering value, durability and comfort with its products distributed worldwide.

Product Benefits

Color Fastness

Will not fade or lose color intensity when exposed to sunlight for extended periods of time

Stain Resistance

Specially treated to reduce fabric absorption of liquid, soil and stains

Water Repellent

Protective layer keeps the fabric dry and clean so it continues looking fresh and new over time

Hygienic Qualities

Treated with hygienic protective finish that inhibits the growth of bacteria, mold and mildew

Environmentally-Friendly

- Woven from 100% solution dyed Acrylic & Olefin yarn, color is added prior to the yard extrusion.
- No dye bath processes are used. Dye baths produce harmful chemical waste that pollute the air and water
- 100% Recyclable
- Waste Water Reduction: production process that reduces water usage
- Certified Eco-Friendly Quality by the International Organization for Standardization 14001
- Oeko-Tex Certified: Oeko-Tex is the world's leading ecolable for textiles. This certification indicates the fabric is free all substances which might be harmful to humans and the environment

Durability

- Resistant to prolonged exposure to sunlight, wind, rain and humidity
- Blocks 97% of UV Rays, which protects the polymer components of fabric, making it a long-lasting product

Weatherability & Abrasion Ratings

	Smoke Gray Fabric	1,500 Sun Hours	10,000 Rubs
	Pumice Fabric	1,500 Sun Hours	20,000 Rubs
	White Speckle Fabric	1,500 Sun Hours	16,000 Rubs
	Blanca Fabric	1,500 Sun Hours	20,000 Rubs

Sunproof Fabric Maintenance

Care Instructions

1. Machine wash in lukewarm water (up to 100° F) with gentle cycle
2. Iron low if needed
3. Do not dry clean
4. Tumble dry low

Stain Removal

Prep:

1. Scrape off encrusted stains by hand, using a brush or putty knife and beat the fabric lightly
2. Vacuum any left over loose particles clean
3. Pre-clean with a neutral universal cleaning agent
4. Remove any residual surfactant, using a spray extraction cleaner

Treat Based on Type:

Type A Stains:

With a clean, absorbent cloth, treat the fabric with a commercial oxidative bleaching agent

Type B Stains:

Fresh stains: treat with an alkaline cleaning agent. Rinse off immediately. Dried-in stains: treat with an enzyme agent, note reaction time. Wipe off gently.

Type C Stains:

Treat with a solvent cleaning agent, using manual method as well (scrape off, beat lightly and vacuum clean when completely dry).

Type D Stains:

Treat with dye-fixing agent and if needed, an oxygen bleaching agent.

Type E Stains:

Fresh stains: treat with mild solution of slightly acidic cleaning agent. Rinse off immediately. Dried stains: treat with an oxidative bleaching agent.

Type F Stains:

Treat with a commercial rust remover or acidic stain remover. Rinse off immediately.

After Treatment:

After any cleaning, use a spray extraction to remove any edge markings/residual cleaning agents.

These are only general recommendations that cannot completely remove all stains. We recommended in all cases that you consult a professional cleaner.
*Essentials For Living is not responsible for any stains or wear and tear on fabrics.

Benefits of Performance Fabric

Whether it's dirty little hands, muddy paws, or a spilled glass of wine, life's everyday messes happen. LiveSmart fabrics resist the stains made by these everyday accidents. With their moisture repellency and stain resistance, LiveSmart fabrics keep your furniture looking and feeling as beautiful as the day you bought it. LiveSmart fabrics are produced exclusively with low denier performance yarns that are encapsulated with a stain and moisture repellent finish. Spills bead up on the surface of the fabric instead of penetrating into the cushion. With their unsurpassed cleanability, LiveSmart fabrics let you relax. LiveSmart by Culp is an array of coordinated fabrics and colors that are designed to look as good as they perform.

LiveSmart fabrics are not only soft to the touch but are also completely breathable. This is due to the unique finishing technology we use that causes surface tension on the face of the fabric that repels liquid but allows air to pass through freely. LiveSmart fabric contains no harmful chemicals so it is safe for pets, children and everyone else in the family!

Environmental Impact:

- Does not contain PFOS (perfluorooctane sulfonate) or PFOA (perfluorooctanoic acid)
- No Proposition 65 chemicals present
- No REACH listed chemicals
- No EPA regulated Section 313 chemicals present
- Low VOC's (Volatile Organic Compounds)
- No dioxin, formaldehyde, phthalates, heavy metals, or bisphenol BPA
- No Halogenated Flame Retardants (i.e. PBDEs)
- PVC free

LiveSmart Fabric:

- Is Moisture Repellent
- Is Stain Resistant
- Is Easily Cleaned
- Contains No Harmful Chemicals
- Requires No After-Market Treatments

Care & Cleaning Methods

All spills should be treated promptly for best results and ease of removal. Most spills can be cleaned by gently lifting the spill with a paper towel, or a clean, dry, absorbent cloth. The use of a paper towel, or clean, dry, absorbent cloth alone may not completely remove the spill.

For further treatment, the following guidelines are suggested for best results.

Liquid Spills

- Stains
- Wine
- Coffee
- Milk
- Blood
- Soda
- Beer
- Urine
- Tea
- Juices
- Kool-aid

Non-Liquid Spills

- Ketchup
- Ice Cream
- Chocolate Syrup
- Jelly
- Crayola Magic Marker
- Dirt/Mud

*Note: The removal of dried non-liquid spills may require the use of a soft brush or butter knife on the affected area before following with wet treatment.

1. MIX

Use a water-based soap mixture that combines 1 tablespoon of a liquid detergent with 16 ounces of lukewarm water.

2. BLOT

Dampen the cleaning cloth in the mixture and gently blot the soiled area. Avoid rubbing the affected area aggressively.

3. RINSE

Rinse the area with a clean, damp cloth to ensure that all soap residue has been removed.

LiveSmart Fabrics are Featured in the Following Collections:

TERMS AND CONDITIONS

California Headquarters: 19511 Pauling, Foothill Ranch, CA 92610 USA

Phone: (949)858-2100 | Fax: (949)858-2044 | Email: info@EssentialsForLiving.com | Website: www.EssentialsForLiving.com

ORDER PLACEMENT

Orders may be placed by email, fax, or through our website. All placed orders are subject to acceptance by Essentials For Living and will be confirmed within two (2) business days. Included with your order confirmation will be any forms required to ship or release your order. **NO MINIMUM ORDER IS REQUIRED.**

PRICING

Prices are listed in U.S. dollars. Prices are FOB Foothill Ranch, CA or High Point, NC and are subject to change without notice.

PAYMENT

All accounts are opened under prepayment terms. Valid forms of payment include credit card (Visa, MasterCard, and American Express), check (NSF checks are subject to \$35 processing charge) and wire transfer. All other payment terms are subject to credit approval and acceptance by Essentials For Living. Credit cards will be accepted only from the entity holding an account with Essentials For Living. Payments from third parties will not be accepted. Check payments must clear the bank before goods are released for shipment or pick-up.

ORDER INFORMATION

All in-stock orders older than 10 business days will be cancelled. Exceptions will be made for orders containing items on backorder. Customer may request to exceed the 10 day deadline for order pick-up or delivery. This request must be made in writing and approved by Essentials For Living. In this case, storage charges would then apply. In order to avoid errors, only orders placed by email, fax, or through our website will be accepted. We strongly recommend account holders use exact Essentials For Living item numbers, descriptions, and finish options when placing orders to avoid costly errors. Account holders should submit their orders referencing Purchase Order names or numbers. Any changes to orders must be received in writing through email or fax. No verbal changes to orders will be accepted.

Special Orders: Delivery times vary by collection and are subject for change beyond Essentials For Living's control. All special orders are subject to deposit.

USE OF TRADEMARKS AND COPYRIGHTS

Essentials For Living is the sole owner of all photographs, product names, product descriptions, item numbers, brand names and any other promotional marketing material found on our website, catalogs and printed materials. Any reproduction or reuse of these assets without prior written approval from Essentials For Living may constitute copyright infringement which will result in legal action to correct any violations.

AUTHORIZED SALES CHANNELS

Essentials For Living is a wholesale distributor of goods and reserves the right to control what sales channels are used to promote its products. Any requests to remove products from sales channels, whether digital or physical, must be immediately respected. Deviation from this policy will result in secession of business relations between the offending party and Essentials For Living.

STORAGE

Essentials For Living will hold orders for a maximum of 10 business days from the date that the orders is complete and available to ship. After 10 business days, the order will be cancelled if enrollment in our fee-based storage program has not been requested by the customer. In order to participate in the storage program, the order must first be paid in full and the customer must agree that the payment will not be refunded and that the order may not be cancelled. The fee to store products in Essentials For Living's warehouse is 1% of the order total, per week and the charge occurs on the first business day of the week (typically a Monday). The minimum overall storage charge per order is \$100.00.

DELIVERY OPTIONS

Essentials For Living provides numerous options to receive goods. Unless the customer's preferred shipping method is established, Essentials For Living will need to know how you intend to receive goods at the time of order placement. Below are our current procurement options. All customers or their authorized carrier must provide their specific Essentials For Living order number before goods will be released. All orders will be shipped by Essentials For Living from the warehouse nearest the customer's specified receiving location. Will Call customers and customers using their own carrier may specify their warehouse of choice. If a transfer is requested by the customer in order to allow items to be available at the warehouse closest to them, a transfer fee will be assessed at the rate of \$50.00 per cubic meter. Not all items are eligible for transfer, such as delicate pieces, over or under-sized products, or closeout items. All transfers are at the sole discretion of Essentials For Living.

Will Call (Pick-Up): Orders may be picked-up from either of our warehouses at no charge. Will Call hours are Monday through Friday 9:00am - 4:30pm, excluding Holidays. Orders will be made available for pick up two (2) business days after payment has been received.

Guaranteed Flat Freight Rate Program (GFP): Essentials For Living will ship your order utilizing common freight carriers when electing to ship through GFP. Current pricing for this service may

be found on our website or provided upon request. Published rates apply to business-to-business shipments going to a commercial receiving location equipped with an elevated loading dock. Requests for lift gate services or a delivery appointment will result in additional fees. Customer will be billed any additional charges if carrier renders additional services. Rates are applicable to regular pricing only. Discounted items will be charged based on regular prices. All in-stock orders shipping through GFP will ship from either warehouse within five (5) business days after payment has been processed and all required forms are received.

Customer Preferred Carrier: Orders may be picked-up from either of our warehouses on a “collect” basis by a carrier of your choosing. Your order will be palletized and released to your carrier who will then bill you directly for the cost of freight. Charges for freight will not be added to your order and Essentials For Living is not liable for any charges or freight damages incurred by selecting this shipping option.

Pallet Fee: Customers requesting palletization of items being picked-up by a common carrier or via will-call will be assessed a palletization fee of \$100.00.

Residential Delivery: Essentials For Living offers residential delivery options to addresses located within the 48 contiguous United States of America. Each residential delivery includes unique circumstances which does not allow for “flat rate” pricing. A quote must be prepared based on information provided by the customer.

DELIVERY TERMS

Drop Shipment: We recommend all merchandise is sent directly to the account holder. Any shipment not being shipped directly to the account holder is considered a “drop shipment” because it is going to a third party. Should you elect to ship to a third party receiver, you will be required to sign a Drop Ship Release Form. If you elect to drop-ship, you are accepting liability regarding freight damage once the Bill of Lading (BOL) is signed free and clear by your receiver. Fees may apply to drop ship orders.

Receiving Requirements: All items must be inspected upon receipt. It is the receiver’s responsibility to clearly note any damage to packaging or shrink wrap on the Bill of Lading (BOL). All damages must be reported to Essentials For Living within the timeframes listed under “Damage and Freight Claims” in these Terms and Conditions.

Freight Liability: Essentials For Living reserves the right to refuse any shipment due to a heightened risk of freight damage or excessive freight costs. Especially vulnerable to freight damage are small shipments and/or shipments containing fragile items such as glass, mirrors, stone, and/or concrete. Should you elect to ship an order with a heightened risk of damage you will be required to sign a Freight Liability Release Form prior to the release of goods.

Carton Breakage Fee: There will be a charge of \$35 per item for articles purchased in less than carton/pack quantities.

LIMITED WARRANTY

Essentials For Living provides a one (1) year limited warranty from the date the original purchaser receives merchandise. Essentials For Living may repair, replace, or credit any piece of furniture determined to be defective in material or workmanship at its sole discretion. Incidental costs such as freight and labor are not included. Craftsmanship and/or use of natural materials in the Essentials For Living product line may cause minor variations to occur in certain pieces. This warranty does not cover these variances. Essentials For Living’s limited warranty does not cover any items sold “AS IS,” floor samples, or closeout items.

Improper Care and Use: Essentials For Living will not repair, replace, or credit any product that has been subjected to improper care, accident, abuse, commercial use, alteration, misuse, or damage cause by fire, natural disaster, or any other act of God.

WARRANTY CLAIMS

Warranty Claims and Parts Request: To initiate a warranty claim the account holder must submit a completed Claim Form along with all supporting documents and required photographs. Claim forms and part requests may be completed at www.EssentialsForLiving.com/Claims. General parts inquiries can be made to Claims@EssentialsForLiving.com. Floor Samples, Closeouts, and clearance items are considered “as is” and are final sale. No claims will be opened for these items. Essentials For Living claims decisions are final and based on current Terms and Conditions.

DAMAGE AND FREIGHT CLAIMS

Claims of this nature are handled differently depending on the method in which you have chosen to receive your items. See below regarding your receiving requirements and filing deadlines unique to your chosen shipping method.

Guaranteed Flat Rate Freight Program (GFP): Essentials For Living will facilitate freight claims for you provided any freight damage or shortage is clearly noted on the Bill of Lading (BOL) and Essentials For Living is notified of freight damage or shortage within two (2) business days. Any concealed damage must be reported to Essentials For Living within five (5) business days of receipt of goods. Concealed damage refers to product damage not apparent at receiving because the carton containing goods is in perfect condition. Any repair costs must be pre-approved by Essentials For Living to qualify for reimbursement. A Claim Form along with digital photographs of damaged goods and cartons will be required to open a claim. A Claim Form may be provided upon request or downloaded on our website. Buyer agrees to keep all original goods, cartons, and packaging until the claim is settled. Failure to inspect merchandise within the time frames outlined above and/or notation of freight damage or shortage on the Bill of Lading (BOL) will result in a denial of claims.

Customer Preferred Carrier or Will Call (Pick-Up): Essentials For Living will not be liable for any damages

occurring during the transportation of goods. All items are signed for as in good condition by you or your hired carrier when retrieved from our warehouse. Should freight arrive with damages or shortage, the customer will be responsible for filing a freight claim with their carrier and any costs associated with obtaining any replacement product(s). Any concealed damages must be reported to Essentials For Living within ten (10) business days of the departure of items from our warehouse or within five (5) business days of receipt, whichever occurs first. Any repair costs must be pre-approved by Essentials For Living to qualify for reimbursement.

Defective or Damaged Glass Policy: All glass items are inspected, packed, and shipped in perfect and unbroken condition. It is the responsibility of the customer to inspect all glass products during receiving for cracks or defects and note any defects or damage on the Bill of Lading (BOL).

FAILURE TO ACKNOWLEDGE DEFECTIVE OR FREIGHT DAMAGED GLASS AT THE TIME OF RECEIPT MAY RESULT IN DENIAL OF CLAIM BY ESSENTIALS FOR LIVING OR FREIGHT CARRIER.

Remedy Process: Essentials For Living's process for addressing approved claims will start with sending any replacement part(s) or components if possible. Should additional action need to be taken, Essentials For Living will discount, repair, or replace an item at our discretion.

Charge Backs: Under no circumstances will Essentials For Living accept automatic charge backs. We will not accept charges for any reason unless prior written authorization is provided by Essentials For Living.

PRODUCT RETURNS

Essentials For Living does not accept returns or exchanges without a Return Authorization. Returns will only be accepted for new goods in unopened cartons that are in perfect condition. All returns must be issued a Return Authorization within 14 days from original shipment date and returned in original Essentials For Living cartons with all internal packaging material and assembly hardware present. All returns must have freight prepaid by the account holder. Goods sent freight collect will not be accepted. A **20% restocking fee** applies to all returned goods. The restocking fee is based on the regular cost of goods. Special order items are made-to-order and cannot be returned for any reason except through an approved claim. If a returned item is not returned in new and unused condition, contained within the original carton, and accompanied with all original packaging material, the return will not be accepted. Should a return be shipped to Essentials For Living without a Return Authorization, or is rejected due to nonconformity with this policy, the account holder will be responsible to arrange for the item to be picked up and returned to them. Any such items not picked up within 60 days will be disposed of. It is the account holder's responsibility to properly package authorized returns to prevent damage. Returns arriving damaged due to poor packing will not be credited. Floor samples, closeouts, and clearance items are considered "as is"

and are final sale. These "as is" items are not eligible for return. No credit will be issued for rejected or unauthorized returns.

REIMBURSEMENTS

Credits and standard deductions should be applied to payments as soon as possible and it is customer's responsibility to ensure this is done. If an agreed upon credit or deduction is not taken within three (3) months of the invoice date of the order the credit or deduction amount will be forfeited. Credits or deductions can only be applied to future orders, refund payments will not be provided by Essentials For Living.

PRODUCT VARIANCE

Essentials For Living products conform to samples displayed in our catalogs, website and showroom floors. Photographs may not be an accurate representation of color – variation is to be expected. Products made of natural materials may include unavoidable variation in color, texture, grain, blemishes, marks, scratches, and cracks. These are not defects, but the materials natural characteristics. By ordering these products, you accept the characteristics unique to each item.

PRODUCT DELAY

Essentials For Living makes every effort to provide accurate lead times and adhere to our commitment dates. However, these dates are estimates and are subject to change beyond our control. Essentials For Living is not liable or responsible for any direct, indirect, consequential, or incidental losses or damages due to delays.

INACCURACY DISCLAIMER

The materials and information in our General Price List, Catalog, and/or Website may include typographical errors, inaccuracies, or omissions that may relate to product descriptions, pricing, and/or product availability. Essentials For Living reserves the right to correct, update, or change any errors, inaccuracies, or omissions at any time without prior notice (including previously submitted orders). Essentials For Living will not be liable or responsible for any direct, indirect, consequential, or incidental losses or damages as a result of typographical errors, inaccuracies, or omissions that may relate to product descriptions, pricing, and availability.

SPECIAL CONSIDERATION FOR THE FOLLOWING COLLECTIONS AND FINISHES

BA **Bella Antique Collection** products are made with natural stone, antiqued metal, concrete, and reclaimed wood. These products include unavoidable variation in color, texture, uneven grain, blemishes, scratches, marks, and cracks. **Fabric** finishes made with natural materials feature unavoidable dye lot variation.

These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect the natural finishes.

- D** **District Collection's Concrete** is a fiber-reinforced material comprised of granite stone powder, cement, natural jute fibers and water. Although not considered a defect, non-structural hairline cracks are possible as a result of shrinkage and the natural curing process. Outdoor items containing Concrete should not be left outside in extreme weather such as freezing temperatures, snow and ice. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this finish.
- E** **Essentials Collection's Fabric** finishes made with natural materials feature unavoidable dye lot variation.
- H** **The Hamptons Collection** products are made by hand from local artisans, who weave one piece at a time from natural rattan & synthetic fibers. These products include unavoidable variation in color (due to the dye process in which each piece of rattan absorbs color differently), texture, uneven grain, with the possibility of blemishes, scratches, marks, and cracks. These features are not defects, but rather part of the material's natural characteristics. By ordering from this collection, you accept the characteristics unique to each item and the hand-woven nature of the product. You agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this natural finish.
- M** **Meridian Collection's Bonded Leather** is not genuine leather, it is a man-made product. **Synthetic Leather** is not genuine leather, it is a man-made product and should be cleaned with oil-based products such as Murphy's Oil. Alcohol-based cleaners should not be used on these finishes.
- S** **Sel De Mer Collection** products are made by hand from local artisans, who weave one piece at a time from natural rattan. These products include unavoidable variation in color (due to the dye process in which each piece of rattan absorbs color differently), texture, uneven grain, blemishes, scratches, marks, and cracks. These features are not defects, but rather part of the material's natural characteristics. By ordering from this collection, you accept the characteristics unique to each item and the hand woven nature of the product. You agree that no claims will be approved regarding these natural variations. Special care should be taken to protect this natural finish.
- SH** **Stitch & Hand Collection's Top Grain Leather** is made from natural cow hides. These hides may contain creases, small blemishes and unavoidable variances in color. Each piece is unique and any variation should be considered part of the beauty of this natural product. **Synthetic Leather** is not genuine leather, it is a man-made product and should be cleaned with oil-based products such as Murphy's Oil. Alcohol-based cleaners should not be used on this finish. **Fabric** finishes made with natural materials feature unavoidable dye lot variation.
- T** **Traditions Collection's Carrera Marble** is a 100% natural stone product imported from Italy. As such, variance from piece to piece is to be expected. The **White Concrete** finish is a handcrafted natural polystone material that features variation in color, texture and density. The **Faux Shagreen** finish is meant for indoor use only. This material is created by pouring a liquid resin mixture into a mold to recreate the look and feel of real Stingray skin. This process produces an unavoidable variance in both color and texture. The mold used creates panels which are then adhered to each piece of furniture resulting in the characteristic seaming. Because this is done by hand, varying degrees of seam visibility are to be expected. The **Acacia Veneer** finish is sandblasted to create a rustic appearance. This process accentuates the natural grain of the wood and creates a variation in both color and texture. The existence of natural knots, cracks, scratches, and marks in the surface of the wood should be expected. The **Natural Rattan** finish is a natural material that includes unavoidable variation in color, texture, blemishes and marks. The **Top Grain Leather** finish is made from natural cow hides that may contain creases, small blemishes and unavoidable variances in color. Each piece is unique and any variation should be considered part of the beauty of this natural product. **Fabric** finishes made with natural materials feature unavoidable dye lot variation. These features are not defects, but rather the material's natural characteristics. By ordering products from this collection, you accept the natural characteristics unique to each item and agree that no claims will be approved regarding these natural variations. Special care should be taken to protect these finishes.
- W** **Woven Collection's Gray Teak** is solid teak wood finished with a solution that expedites the aging process of teak to a natural silver tone. Over time, the natural weathering of Gray Teak will cause its appearance to change in color and texture, with possible marks and cracks. By ordering Gray Teak, you accept these characteristics and agree that no claim will be approved regarding the natural aging process of teak or the special color qualities associated with this finish. Special care should be taken to protect this natural finish. **Fabric** finishes made with natural materials feature unavoidable dye lot variation.
